## LOCATION

The Southwestern State Normal School is located at California, a town beautifully situated on the left bank of the Monongahela River in Washington County, Pa., in the heart of the Pittsburgh district, only fifty miles from the Smoky City. The town combines the advantages of comparative quiet and cleanness with those of close proximity and easy access to the many busy cities and towns of this populous region.

The Normal School is situated only a few blocks from the P. R. R. station, and a good paved road leads to the ferry from the station known as East California, on the P. & L. E. railroad. Excellent train service is maintained between Pittsburgh and California on both sides of the river. Trains run each way nearly every hour of the day. The schedules suit day students who may wish to come from the vicinity of Rices Landing and other points along the river. Uniontown, Connellsville, and Somerset County communities are easily accessible. A trolley line from Pittsburgh now runs to Roscoe, within three miles of California on the P. R. R., by which connections can be made for Washington, Canonsburg, Finleyville, and other towns of that section. A franchise has been granted this Company by which the lines will be extended to the campus.

## HISTORICAL AND DESCRIPTIVE STATEMENT

The Southwestern State Normal School is the outgrowth of an Academy first opened in 1852. It is located at California, Washington County, Pennsylvania, on a site well chosen for the great educational work which the school was destined to carry on. The town, which was founded in 1849, by a company of six men, who gave it the name suggested by the discovery of gold in California state in that year, is noted for its beauty, its cleanness, and the excellence of its educational facilities. Many municipal improvements have been made in recent years, such as street paving, electric lighting, sewerage, etc., and some handsome edifices have been erected, including a fine new station, two of the best bank buildings, and two of the largest business blocks in the Valley, and a number of handsome churches. California attracts families seeking good educational advantages, together with the conveniences, culture and comfort of a residence town. The private residences recently built are in keeping with the imposing new business houses and the town is rapidly becoming one of beautiful homes. No saloons have ever been opened in the town or within several miles of it.

In 1865, the Academy was chartered by the State as the "Southwestern Normal College". August 26, 1868, the corner stone of the present main building was laid. The principal address on this occasion was made by General John W. Geary, then Governor of Pennsylvania. On May 26, 1874, the "Southwestern Normal College" became, by State authority, the "Southwestern State Normal School" for the Tenth District, composed of the Counties of Washington, Fayette, Greene and Somerset, and the first class of two members was graduated in the following year.

The school now occupies a group of seven buildings. The Main Building was first used in 1870; the North Hall in 1874; the South Hall in 1876; Science Hall in 1892; the Gymnasium in 1894; and the Laundry and Power Buildings in 1899. The last building to be erected is Dixon Hall used as a dining hall

and dormitory, and was completed and first used at the beginning of the fall term of 1907. It is 132 feet in length and 80 feet in width and occupies a commanding site just south of South Hall. The first story space is used chiefly for a dining hall, accommodating about 500 persons, and a kitchen with necessary rooms attached. The second and third stories provide dormitory rooms for one hundred lady students and teachers. The basement story is used for class rooms and storage. In all the buildings of the school is to be found every modern improvement, such as electric lights, steam heat, running water, etc.

The campus contains 12 acres and is made most attractive by flowers, grass, shrubbery, shade trees, and well constructed grounds for games, such as tennis, basketball, baseball, and football.

Under the new code, State Ownership of Normal Schools became possible. The Legislature of 1913, appropriated \$100,000 to be devoted to this purpose. \$25,000 of this money was apportioned by the State Board for the purchase of the Southwestern State Normal School. May 20, 1913, the stockholders of the Institution voted to accept the proposition of the State Board for the purchase of the Institution, and the dissolution of the corporation. February 17, 1914, committees representing the Board of Trustees and the State Board of Education signed the agreement, which received the approval of the Governor. On May 7, 1914, the actual transfer took place. A State Board of Trustees consisting of nine members, who will conduct the business affairs of the Institution in the name of the Commonwealth, has been appointed by the State Board of Education. The State of Pennsylvania will never forsake these institutions which have been taken under its fostering care. Increased appropriations with a corresponding efficiency will mark a new era in the development of the institution.

## **COURSES OF STUDY FOR PENNSYLVANIA STATE NORMAL SCHOOLS**

---

[As finally revised and adopted at a meeting of Normal  
School Principals held at Harrisburg,  
December 30, 1910.]

---

NOTE—This course is based on the “unit” plan as proposed by The Carnegie Foundation.

A “unit” represents a year’s study in any subject in a secondary school constituting approximately a quarter of a full year’s work.

(This statement is designed to afford a standard of measurement for work done in a secondary school. It takes the four-year high school course as a basis and assumes that the length of the school year is from thirty-six to forty weeks, that a period is from forty to sixty minutes in length and that the study is pursued for four or five periods a week; but, under ordinary circumstances, a satisfactory year’s work in any subject cannot be accomplished in less than one hundred and twenty sixty-minute hours or their equivalent. Schools organized on a different basis can nevertheless estimate their work in terms of this unit.)

Students admitted to the First Year shall have a fair knowledge of Arithmetic, Reading, Orthography, Penmanship, United States History, Geography, Grammar, Physiology, Civics, and the Elements of Algebra to Quadratics. Test by Faculty.

In the fourth year Ethics, Logic or Sociology may be substituted for Virgil, French or German. Philosophy of Education, or Surveying may be substituted for Ethics, Logic or Sociology.

## CONDITIONS OF ADMISSION Etc.

1. Properly certified graduates of approved Pennsylvania high schools of the first grade and city high schools as listed by the Department of Public Instruction, shall be admitted to the third year of the Four Years' Course of the State Normal Schools without examination, and be conditioned in the branches that have not been satisfactorily completed by such students.

2. Properly certified graduates of approved Pennsylvania high schools of the second grade shall be admitted to the second year of the Four Years' Course of the State Normal Schools without examination, and be conditioned in the branches that have not been satisfactorily completed by such students.

3. Properly certified graduates of approved Pennsylvania high schools of the third grade shall be admitted to the first year of the Four Years' Course of the State Normal Schools without examination, and be conditioned in the branches that have not been satisfactorily completed by such students.

4. A person who desires to be admitted to the second or third year without having previously attended an accredited high school, must have a certificate of a commissioned Superintendent of Schools, showing that he has pursued the branches of the first year or the first and second years, with his

standing in those branches, or must pass a satisfactory examination by the Faculty in said branches, or be conditioned in them. But the studies in which anyone is conditioned under this rule or any of the rules above, shall not foot up more than 120 weeks.

5. If the Faculty of any State Normal School or the State Board of Examiners decide that a person is not prepared to pass an examination by the State Board, he shall not be admitted to the same examinations at any other State Normal School during the same school year.

6. If a person who has completed the State Board examinations required for admission to the classes of any year at any State Normal School desires to enter another Normal School, the Principal of the School at which the examination was held shall send the proper certificate to the Principal of the school which the person desires to attend. Except for the reason here stated, no certificates setting forth the passing of any studies at a State Normal School shall be issued.

7. Candidates for graduation shall have the opportunity of being examined in any higher branches, including vocal and instrumental music and double entry bookkeeping; and all studies completed by them shall be named in their certificate. Persons who have been graduated may be examined at any State examination in any higher branches, and the Secretary of the Board of Examiners shall certify on the back of their diplomas as to the passing of the branches completed at said examination. No certificate or diploma valid for teaching except the one regularly issued by the State Board of Examiners to regular graduates shall be issued by any State Normal School or any person connected with any such school.

8. A certificate setting forth the proficiency of all applicants in all the studies in which they desire to be examined by the State Board of Examiners shall be prepared and signed by the Faculty and presented to the Board. Studies that have been completed at a high school shall be distinguished by the words "high school" or the initials "H. S." A separate list of each class shall be prepared for the use of the examiner, to-

gether with a separate list of students conditioned in any branch, with the branches in which they were conditioned, and the grades shall be indicated in every list where substitution is made or extra branches are taken. These lists shall be ready for the State Board before the examination begins.

9. No State examination shall be given to any student on part of a year's work, unless the study is completed, but, (except in the last year's examination) a student may be conditioned by the State Board of Examiners in not more than two subjects, covering not more than one period of work for a year. Accurate records of these conditions shall be promptly sent to the Superintendent of Public Instruction, and the fact that the students thus conditioned have taken up such subjects and passed them by Faculty shall be certified to in writing to the State Board of Examiners before such students are admitted to another State examination.

10. Within fifteen days after the examination by the State Board at any Normal School, the Principal of the school shall send to the Department of Public Instruction, a complete list of all who have taken advanced branches, together with a list of these branches, also a list of those to whom diplomas and certificates were granted, and a list of those who passed the State examination in any year, naming the year.

11. Graduates of State Normal Schools in the regular course, and graduates of colleges approved by the College and University Council, who shall satisfactorily pass the Faculty and State examinations in the course required therefor, shall receive the degree of Bachelor of Pedagogics. And Bachelors of Pedagogics who have, after receiving such degrees, taught successfully for two years, and passed the Faculty and State examinations in the course required therefor, shall receive the degree of Master of Pedagogics.

12. Residence for the last two years shall be required of all students, except in the case of graduates of Four Years' Courses in Colleges approved by the College and University Council, who may be graduated after one year's residence.

## IX. COMMERCIAL DEPARTMENT

The opportunity to do successful commercial work in the Normal School environment is invaluable. Students have access to the library, to the social life of the school, and to work in the departments of English, history, and mathematics under the regular normal school teachers. The department is equipped with L. C. Smith, Remington, and Underwood typewriters, and the Benn Pitman system of shorthand is used. All the subjects found in commercial schools are taught here.

The courses as arranged are merely suggestive. The student should inquire at the office whether any changes he wishes to make in his course are allowable. The figures indicate the number of hours "Credit" secured by one year's study. Work done in other schools receives recognition and satisfactory credits will be accepted. We award diplomas to all students completing either course. Those enrolled in "Two Year Course" receive the Commercial Diploma, but are not entitled to privileges of Normal Graduates. All irregular students receive a certificate stating exactly the proficiency attained in any subject studied.

Chorus Directing.	

The school and town choruses combined have presented such works as "The Rose Maiden," "Joan of Arc," "Messiah" and "The Creation."

Those who can play orchestral instruments should bring them along and help to swell the orchestra.

## XI. PIANO DEPARTMENT

Beginners and those not far advanced are especially welcome, as they possess few or none of the bad habits of performance which are so easily formed by wrong teaching or careless practice, and which prove in many cases almost insurmountable obstacles to high cultivation; they, therefore, receive more rapidly the correct fundamental principles, and can, as a rule, make steady and rapid progress uninterrupted by the tedious process of unlearning bad habits.

Candidates for graduation will be required to satisfy a Board of Examiners in the following tests:

To play (from memory) all of the following scales and arpeggios:

(a) Major, and harmonic minor scales, the hands commencing a third, sixth, eighth, or tenth apart; and chromatic scales commencing a minor third, major or minor sixth, or minor tenth apart all in similar and contrary motion. Melodic minor scales will be required in similar motion only, an eighth apart.

(b) Major, harmonic minor and chromatic scales in double thirds in similar motion only.

(c) Major, harmonic and melodious minor, and chromatic scales in double eighths in similar motion, the hands commencing an eighth apart. Scales in double eighths in contrary motion in *major* keys only, both hands commencing on the key note.

(d) Arpeggios of major and minor common chords and their inversions, and dominant sevenths and their inversions, in similar and contrary motion, the two hands to play the *same* position of the chord.

All the scales and arpeggios, as above stated, to be played with legato and staccato touch:—four octaves in similar motion and two octaves in contrary motion, except scales in double eighths, which are to be played in three octaves in simi-

lar motion and two octaves in contrary motion. The staccato touch to comprise both finger and hand staccato (except scales in double thirds and double octaves, which will be required with hand staccato only). The scales are to begin on the highest or lowest note at the discretion of the teacher.

Candidates for graduation must be prepared to play before the Examiners the following compositions:—One piece from list A, one piece from list B, and four pieces from list C. The compositions in lists A and C must be played from memory. Equivalentents for list C will be accepted at the discretion of the Director.

### List A.

One prelude and fugue from Bach's Well Tempered Clavichord.

### List B.

Moments Musicaux Op. 94.....	<i>Schubert</i>

### Harmony

The work in harmony is conducted with this object constantly in view; to develop in the student the capacity to *think* music; that is, to understand and recognize melody, harmony and rhythm as conscious and definite elements of his thought. To attain this object, melody is taken as the starting point, and the student is taught in progressive order to create his own melodies, to develop, through the medium of melody, a definite feeling for the characteristic quality of each harmony, and to employ correctly all the harmonies (in their various chord-formations) in the harmonization of melodies, both original and given. The conscious musical fact is emphasized in each step more than the written symbol. Hence, instead of learning first the formal and dry rules for writing and then writing merely by rule, the student is from the beginning made acquainted with music as a real and thinkable something, the necessity for certain rules thus becoming logically apparent.

This process of making music an *audible* fact in the student's thought, rather than a merely visual fact on paper—of hearing music *before* writing it—is carried on through every step in harmony, counterpoint and composition. Candidates for graduation must have had not less than one year of harmony.

### History of Music

Clarence G. Hamilton's "Outlines of Music History" is the book employed. Candidates for graduation must pass an examination on the material therein offered. In addition to this they must present a copy in ink of one piece by each of the great masters. These copies must include all signs of legato, staccato, slurs, pedal marks, and words indicating tempo or delivery. The student must be able to explain to the Board of Examiners, all such marks found in these compositions.

### Brass Band

One of the interesting features of the year's work has been the organization for the first time of a brass band among the student body. They made their first appearance on May Day, and it bids fair to become one of the important features of the school in the near future. Dr. Veon has been the teacher and director of this work. All prospective students who play any instrument of this kind should bring it along, and become candidates for a position in the school band. Girls as well as boys are eligible to membership. Training is given free.

## XII. TRAINING DEPARTMENT

The center of activity for the seniors in the Normal School is the training department. This is a work-shop where theory is translated into practice. This is the place where all other work functions. Here each apprentice teacher has an opportunity to gain first-hand knowledge of child life. With 140 enrolled during the year, a splendid opportunity has existed for students to come in contact with individual children. The work of the school is more effective, and grades contain a greater variety than has heretofore been offered. The attendance within the school has been admirable, and most excellent work has resulted. All the opportunities of the Training School have been offered free to the children of the commu-

nity. The response to this generous offer has been most hearty.

The work of observation in the third-year class has been carried on in four groups. Each group observes a lesson taught by one of the regular teachers, after which a report of the lesson is carefully prepared, and given to the critic teacher. A week later the same group returns to that teacher for a period of consultation and discussion concerning these reports. When these students become seniors they will have a thorough understanding of what is expected in the Training School, and how the regular teachers obtain the results which they desire. The curriculum followed in the Model School is closely patterned after the State Course of study published by the Department of Public Instruction. During the last year the children took part in a Hallowe'en Entertainment, in a Patrons Day reception, and May Day exercises, all of which were prepared with the help of the seniors.

During the Conference of Superintendents and Principals in February, the Model School met in special session on Saturday afternoon, in order that these men and women might see the character of work that is being done. Teachers and directors from the district are invited to inspect the various departments of this school. Its aim is to render the greatest amount of service possible not only to the students in the school, but to the teachers in the district.

### **Kindergarten**

For the first time in recent years the Kindergarten has been maintained in connection with the Training School. From the very beginning this department has been crowded with applications. An average of 30 children has been enrolled in the Kindergarten. A number of girls who are anxious to make this sort of work a life work, have an opportunity to take their training in this department. Besides being a feeder for our Training School, the Kindergarten will turn out a very creditable product for Kindergarten work in public schools of the State. Children are admitted between the ages of 4 and 6, on condition that they continue to attend the Training School when they are old enough.

The work consists of plays, games, songs and stories, dramatization, and work including paper cutting and folding, clay modeling, and many other forms. Visitors are always much interested in this line of work. Prospective students who desire training work in this branch of the Model School should correspond with the Principal relative to the matter.

### **XIII. DOMESTIC SCIENCE**

The department of Domestic Science was opened on the second floor of Science Hall in the fall of 1913. Three rooms are devoted to this work. The sewing-room contains two sewing machines, a cutting table, ironing board, and tables for individual work for 24 girls. The kitchen consists of 24 fully equipped outfits, with one regular range. In the dining-room meals are actually served, and the students come in contact with this phase of the work. In no department of the school has the work been more practical, and the students have been enthusiastic in their praise of this sort of instruction. The department is well located and well equipped. Children in the Training School from the third grade up have had work in both cooking and sewing.

A feature of the year's work has been the providing of cookies, cocoa, etc., for some social occasions in the Training School like Hallowe'en, Thanksgiving and Christmas.

### **XIV. MANUAL TRAINING**

The large basement room under the dining-room in Dixon Hall has been equipped for the use of the students in Manual Training. A splendid course in Mechanical Drawing, and wood-work has been given, for the first time, this year. The equipment consists of individual benches fully supplied with tools, and three power machines including band-saw, lathe, and combination grindstone. The equipment in this department cost about \$1,000.00. Children in the Training School have been making good use of the shop, since it was opened. The

boys thoroughly enjoy this new method of expression. Normal students taking the course in Manual Training will be charged a fee of \$ .50 per term to cover the cost of the material. Where students desire to make any large piece in wood, the actual cost of the material involved must be met in addition to this fee, if the piece is to become personal property.

## ADMISSION

### General Conditions

Applicants for admission should present their credentials from other institutions which they have attended. Blanks may be obtained from the Principal's office. All work that is satisfactorily completed in approved high schools are credited on the Normal Course. Subjects that have been passed with high grades in teacher's examinations given by County Superintendents will also be credited, when the certificate is presented.

### Purpose

The function of this Normal School is to prepare and qualify teachers for service in the public schools of Pennsylvania. Two distinctive lines of work are carried on. The academic and the professional. The academic courses are intended to broaden the horizon of the individual, and arouse his scholastic enthusiasm and secure the highest grade of mental training and alertness. The professional attitude, however, predominates in every department of the school, even the special courses in music both vocal and instrumental, in elocution and in the commercial subjects, look toward the teaching profession. The more recent subjects including Agriculture, Domestic Science, Manual Training, Mechanical Drawing, and the work in the Kindergarten all are conducted with reference to their influence upon the prospective teacher, and to increase his efficiency in the community which he may serve.

### **Fitness for the Work**

Good health is a prime prerequisite to entrance upon a Normal School course of study. While the work is not too exhaustive for a person in good health, yet those who are lacking in physical vigor will find it to their profit to delay entrance until they may have fully recovered from all physical weakness.

The qualification of mental aptitude is as fully an essential characteristic as mere physical health. It is always to be recognized that the finest scholar does not necessarily make the most successful teacher, but on the other hand the Normal School does not pretend to form capable teachers of those who are lacking either in learning or the skill to instruct and manage the ordinary pupil of the elementary school.

Further the board of instruction does not assume to itself infallibility of judgment as to the fitness in individual cases. It merely intends to look for the essential characters of alertness, integrity, love for work, enthusiasm, inspiration, energy that never wearies, and a proper conception on the part of the teacher of the relation of the school to the individual and the community.

### **Discipline**

The aim of the administration is to lead students to be self-governing. The relation which a Normal School sustains to the State, and the guarantee of self-control which it must vouch for in regard to its students, compel a much more rigid and careful daily oversight of the habits of students than would be either necessary or advisable in institutions of different character. This school can in no measure take over the function of a reform school. Its one disciplinary function is to offer the opportunity for young men and young women of well defined purpose and age to cultivate under the most favorable circumstances, habits of good order, self-respect, and leadership. Individuals who cannot adapt themselves to such an atmosphere will find it necessary to seek other schools

for their education. Fitness for the profession of teaching is the one end to be sought, and any person who cannot comprehend such an ideal is a misfit.

### **Honor System Rules**

I. The Honor System herein inaugurated by the students of the Southwestern State Normal School at California, Pa., requires absolute honesty in all oral and written class work, in all examinations, and in such other work as the instructors shall assign to be done without assistance. This honesty applies as fully to the giving as to the receiving of illegitimate help.

II. It is the duty of anyone believing that a breach of the Honor System has been committed to report the offender to the President of the Student Organization Board; after which the Board shall investigate the matter as quietly and speedily as possible.

III. After a thorough investigation has been made the Student Board shall summon the accused before them and demand an explanation of his or her conduct. The Board may at its discretion warn the accused as to future consequences should he or she be again guilty of any act of dishonesty.

IV. The accused shall have the privilege of demanding a hearing before the Student Board at any time.

V. If the offence is repeated, or any other breach of the Honor System is committed by the same individual and is reported to the Student Board and if, after hearing the explanation, seven out of nine who compose the Board are convinced of the guilt of the accused, and shall so cast their votes in secret ballot, this shall mean that the decision of the Board is for asking the student to withdraw from the school. The Student Board shall then report their decision to the Principal of the school for final action.

VI. In the trial before the Student Board, if necessary both the accuser and the accused shall appear. Only

such questions shall be asked as tend to bring out the facts. If the accused refuse to appear before the Board, without valid excuse to the President, the Board shall meet and render its decision without a trial.

VII. The rules of the Honor System shall be enforced by the Student Board.

The Student Organization Board shall be composed of nine members to be elected in general assembly from the various classes as follows: five Seniors for one year, two third year for two years, one second year for one year, one first year for one year.

VIII. The officers of this Board shall be a President and Secretary chosen by the Board from among their own number. The president shall preside at all meetings and see that the work is carried on in the proper way. The secretary shall keep full records of all the proceedings of the board.

IX. All written work shall be certified according to the wording of the following form, which shall be written on the completion of such assignments, together with the proper signature:—I hereby certify that I have neither given nor received assistance of any kind in the work herein offered.

.....  
*Signature.*

No paper shall receive consideration at the hands of the teacher unless it is properly certified and all such papers shall be passed to the Student Board for action.

X. Any student registered in any department of this school shall be subject to these regulations.

Every student in the school shall be required to sign a statement that he or she has become familiar with the foregoing Honor System and pledges himself or herself to maintain it.

### Student Organization

During the last three years the student body has taken over the control of examinations. A representative board of nine members is elected by popular ballot. This board passes on all matters arising in connection with the Honor System.

### Excuses

No excuses for absence will be granted in cases where regular work is interfered with, unless accompanied by a written request from parents or guardians.

### Physical Culture and Athletics

The Normal Gymnasium is a large, well lighted and ventilated building fully equipped with apparatus, such as the vaulting horse, paralled bars, horizontal bar, climbing ladders, traveling and flying rings, hand ball board window screened for basket ball, indoor base ball, etc., a large number of tumbling mats, chest weight machines of all kinds, spring boards, vaulting standards and poles, punching bag, etc.

The athletic field is one of the finest grounds in this part of the state for baseball, football and track athletics.

The aim of the athletic work is to give every student the chance of not only keeping in good physical health, but of building up the body by systematic training, and of overcoming the defects brought about by careless habits of position and movement; also in the vigorous games of baseball, football, etc., to develope courage, determination, self-control, aggressiveness, self-reliance, obedience, quickness of decision, united action as well as agility, strength and endurance, qualities all of which are so essential to a team member and to a large extent throughout life.

### Physical Training for Women

In the physical training for the young women of the school, health and grace are considered the goal, in reach-

ing which a multitude of other desirable qualities are encouraged. The course is about equally divided between educational and recreative work. In good weather outdoor games occupy the time, while during the winter months Swedish gymnastics, aesthetic gymnastics, work in hand apparatus—for instance clubs and wands,—and games, form each day's program.

This work forms a part of the regular course and a physician's certificate is required from any student unable to enroll in a gymnastic class. New pupils are requested to wait until arriving at the school before providing themselves with suits, as uniform suits are required and they are supplied at reasonable prices at the school.

## THE LIBRARY

Our students have access to over eight thousand books, selected with reference to the subjects taught in the classroom. Over three hundred new books have been added this year. The reference library and reading room are two well lighted rooms located in the central part of the main building. The Children's Room is in the Science Hall, connected with the Model School. Regular, systematic library work, supervised by the librarian, is required in all the four years of the course. Credit for this work is the same as for any other "special" course.

### Library Course

I. The purpose of the library course is to create a "library spirit" and to develop a love of literature, as well as to teach the use of the library. The first three years of the course embrace the following work:

- a. Use of the catalogue, Reader's Guide, and other indexes, including bibliography.
- b. Reference books and how to use them as tools in the preparation of lessons.

- c.* Diacritical marking.
- d.* Our periodical literature.
- e.* How to review and outline biography, drama, essays, and fiction.
- f.* How to select subject matter for debates.
- g.* Study of classified list of authors and their works.

2. The senior, or fourth year is given over to such advanced work as will aid the students in their own school library work, as outlined below. This work is designed to prepare teachers, especially for grade and rural schools, for the selection, use and care of a school library.

- a.* Preparation and selection of stories as given in the course of study for the elementary schools of Pennsylvania.
- b.* Selecting, reading, and purchasing of children's books.
- c.*...Mending of books, purchase and mounting of pictures.
- d.* Work of State Library Commission.
- e.* Cataloguing of a small library.

### **Literary Societies.**

There are two flourishing Literary Societies at the Normal, the Clonian, and the Philomathean.

These two societies have worked side by side in friendly rivalry for many years. Each society occupies a large and beautiful hall, complete in all its appointments. The weekly exercises are of a very interesting character, and afford to the members a most valuable literary training. Much of the success of the California Normal graduates is due to the training received in these societies. No event of the year at California is quite so popular as the "Annual Contest" between these two societies.

### Religious Life at the Normal.

The religious atmosphere at the Normal impresses every one. The active Christian work of the students and faculty is an inspiration to every new student. There are strong organizations of the Y. M. C. A. and the Y. W. C. A. Each year delegates are sent to summer conferences. A healthy moral atmosphere should surround the students. While the authorities of this school avoid everything of a sectarian nature, they endeavor in every proper way to interest students in Christian work. Devotional exercises are conducted on the morning of each day in the chapel.

### Social Life

Several receptions are held each term that students may be perfected in the usages of good society. On Friday evening after literary society, a short social is maintained in the Main Hall. On Tuesday evening the young men may call upon the young women in North parlor from six to seven. Constant care is exercised that both young men and young women may have a wise healthy development. Occasional formal dinners are given with toastmaster and after-dinner speeches. These accustom our young people to such occasions and are a source of special enjoyment. The Halloween Masquerade, the celebration of Washington's Birthday and the May Day are three of the distinctive features of the school year. The allotment of the students in small groups at separate tables in the dining-room makes possible a form of social life which is most cheerful and homelike. French and German tables have been maintained where students in these subjects converse at one meal daily in the language selected. Teachers and students associate freely, and their relations are most homelike and natural.

### Lectures and Entertainments

One of the most pleasing features of our school life is the frequent appearance of leading lecturers and entertainers from

all over the country. Among those who have appeared during the past year are the following:

Thomas Brooks Fletcher,	Ben Greet Players,
Reno, The Magician,	A. E. Wiggam,
Supt. Eli Rapp,	Prin. E. E. Boyd,
Meddie O. Hamilton,	Dr. O. T. Corson,
L. H. Dennis,	Millard B. King,
Dr. Herbert L. Willet,	Pres. E. E. Sparks,
Tuskegee Quartet,	Dr. Arthur Holmes.

### Household Department

The buildings are heated by steam and lighted by electricity. Reception rooms and parlors are conveniently located, thus foregoing the necessity of visitors in the dormitories. Modern fire escapes, electric alarm bells, fire hose connected with pumps and reservoir, and a night watchman give special protection against fire.

The students' rooms are large, light and cheery. They are heated, lighted, carpeted, newly papered and provided with dressing case, table, spring bed, washstand, and wardrobe. Printed regulations governing their occupancy are posted in each room, and students will be held responsible for their own rooms, and any injury done will be charged to the occupants. Damages of a general nature will be assessed upon the whole school.

The dining room, one of the finest in the country, is spacious, well ventilated, lighted by electricity, and unusually pleasant. The table commends itself by abundance of supply, superior quality and adaptation to health. The teachers board with the students, and while such order is required as obtained in any refined home, the cheerful advantages of such daily intercourse have large educational value.

Teachers room in every hall and are in constant and close association with the students. Two students usually occupy each room.

Daily inspection of the dormitories is made by a trained nurse. This insures proper hygienic oversight as well as the

early detection of incipient symptoms of illness among the students. In cases of physical indisposition, a slight charge will be made for all trays sent to rooms.

Except in case of a deficit in the State Aid Appropriation, the State pays the tuition of all students who are over 17 years of age and who declare their intention to teach at least two terms in the common schools of the State.

In case of a deficit in the State Aid Appropriation, students at the different State Normal Schools will receive the same pro rata share of the appropriation. No deficit has occurred in recent years.

Graduates making application for a second, or permanent diploma should send a new health certificate, with one dollar as a fee for engrossing and mailing the diploma.

### Deductions

No deductions will be made for the last two weeks of a term, or for the last three weeks of the spring term. Table

Board will be deducted for absence for three consecutive weeks, or longer on account of personal sickness.

### Payments

The expenses for each term are payable at the opening of the term. Payment for part of term will be accepted in special cases in order to accommodate patrons.

Bills may be paid by cash, check, or postoffice money order. Checks should be made payable to the order of "S. W. State Normal School."

Board at above rates includes fully furnished rooms, steam heat, electric light, and ordinary washing. Students furnish their own napkins and towels. An extra charge of \$1.00 per term will be made for material used in the chemical laboratory.

There is no extra charge for vocal music or bookkeeping taken in the regular course classes.

**STUDENTS IN VOCAL DEPARTMENT.**
